DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

This building is the fifth from the corner of Mulberry and Park. The building appears to be used for storage for the near-by Public Library. The condition of the building is fair. It is a semi-detached. IT has a basement plus four stories and has three bays. There is a stone water table and walls are constructed of running brick bond. The wooden cornice has modillions. There two chimneys; one on the right side of the front section and one on the rear addition. The roof is flat. There is a entrance door on the left side of the facade. It is a double door with transom and has flanking wooden Tuscan-Doric pilasters, a frieze and a cornice. There are six marble steps leading to this door.

The two first ^{floor} windows ~~are rectangular and~~ are flat-arched. The panes are six over six. There are old shutter hooks, but no shutters. The second, third, and fourth story windows are in the same style.

The ~~wide~~ width and height of the building is similar to the houses next to it.

This building shows little sign of alteration of the exterior.
